Name: Akindele Opeyemi David.

Portfolio: https://dave-webs.netlify.app

Email: david19dec06@gmail.com.

Location: Akure, Nigeria.

Professional Summary

Passionate Full-Stack and Front-End Developer skilled in React.js, JavaScript, and modern web technologies. Adept at building responsive, user-friendly applications and solving complex technical challenges. Strong problem-solving ability, adaptability, and a fast learner eager to contribute to innovative development teams.

Technical Skills

Front-End: React.js, JavaScript, HTML, CSS.

Back-End: Node.js, Express.js, MongoDB.

Tools & Platforms: VS code, Git, Netlify, Vercel and Render.

Projects & Experience

AI-Powered Study Website (Personal Project): I developed a full-stack study platform with AI-powered chatbot and note-taking features. Integrated user authentication, data persistence, and AI-generated content.

Client Landing Pages (Freelance Work): Created responsive landing pages for various clients using HTML, CSS, and JavaScript. Ensured cross-browser compatibility and optimized performance for faster loading times.

Education: Babcock University (Currently Studying).

Soft Skills

Problem-solving & analytical thinking

Adaptability & quick learning

Strong communication & collaboration

Career Objective

Seeking a Full-Stack or Front-End Developer role where I can apply my expertise in React.js and modern web development to build dynamic and scalable applications.
